Astronauts Space Travel NASA Survey Question

### Would you like to be an astronaut?

« YES!! Working on the ISS is really very exciting and scary at the same time. It is my ambition to become a NASA Astronaut since my 7<sup>th</sup> standard. I want to experience the feeling of microgravity. I want to fly into space and watch the breathtaking views of our Blue Planet!

-Sangeetika

Oh!! Yesssss!!!! I would love to be one :) I'm very interested in aerospace and I keep reading about ISS as well and I'm totally in love with that.

-Sanjeev

I don't know... I mean it would be cool to see the Earth and things from space and to step on the Moon. But then you hear about all these space accidents, and some aspects of it like dried food seem a bit horrible.

-Caroline

1. What is **ISS**?  International Space Station  International Space Satellite  Interstellar Space Satellite
2. What is the **Blue Planet**?
3. Underline the positive and negative adjectives in the paragraphs
4. List the pros and the cons of being an astronaut.

Pros (Positive aspects)	Cons (Negative aspects)

5. **Can** you think of other pros and cons?
